

Photo-cell Controller - NightMatic 2000

ESC Code: 550417

Automatically Switches Light ON and OFF. Saving Energy.

Did I turn the light 'OFF'? Or did I forget to? With the NightMatic 2000, this question's not an issue any more. When it's dark it takes care of switching the outside light 'ON' and 'OFF' all by itself. But that's not all: The intelligent night-economy mode automatically switches the light 'OFF' after a programmable time and back 'ON' again in the early hours.
